

Solar is now within reach.

Get two months **FREE** when you sign up today!

## **Be a Hero.**

People who put solar on their homes create local jobs, help the environment and reduce our country's dependence on foreign oil. You, too, can be a hero - without even adjusting the temperature of your air conditioning.

## **Keep Your Savings**

Now you can get solar with SunRun for just \$1,000 upfront. Keep your savings; they could come in handy.

## **Carry On**

Do you really want to learn all about solar technology? SunRun will make sure your system is working. You think about something else.

**Go solar today and get two months of SunRun electricity for FREE.**

Offer ends May 25th, 2009

## About SunRun

SunRun's new to Massachusetts, but we've been up and running in California since 2007, where we pioneered the model of more affordable solar. We've grown to be the largest provider of home solar electricity in the country and are excited to be in Massachusetts!

## How it works

1. SunRun works with groSolar to design and install the best solar system on your roof.
2. SunRun buys your solar system. You pay \$1,000 to get started, and a low rate for your solar electricity every month.
3. SunRun monitors and takes care of your system for as long as you are a customer.

***The rate you pay for electricity with SunRun stays the same, even as utility rates rise***

**Get started today and your first two months of SunRun electricity are FREE!**

Offer ends May 25th, 2009. Call **877-SUN-MOJO** to get started or visit [www.sunrunhome.com/Massachusetts](http://www.sunrunhome.com/Massachusetts) for more information.
