

IEC Chesapeake and groSolar presents:
SOLAR (PV) DESIGN AND INSTALLATION
 Part 1 of a 2-Part Training set

At IEC Chesapeake – Odenton Training Center
 1424 Odenton Road, Odenton, MD 21113

This seminar is the first of a 2-part series designed to teach students about design process of a common grid-tied photovoltaic (PV) power system. The scope of this class covers the responsibilities of the sales person, including site measurements and preparing the system design and materials list to be handed over to the installation technician

Part 1 will cover:

- Understanding the nature of PV and how it works
- Identifying the optimal location for solar arrays, inverters and wire runs
- Estimating sizing requirements for major components (sales process)
- Selecting major components and balance of system equipment required for installation

The instructor, Jeff Gilbert is the Training Manager for groSolar and is responsible for GRO-U, a comprehensive dealer and employee training program utilizing state of the art and traditional teaching methods. Jeff was the co-founder of Chesapeake Solar, a leading mid-Atlantic solar company. Jeff is also a NABCEP certified Solar PV Installer.

Tuesday, December 7, 2010
